Exit Full Screen View

Problem

Geetha is poor in dealing with arrays. But her teacher gave her an array and asked to interchange the biggest number with the smallest number.

Input Format

First line contains the number of elements of array, n Second line contains the n spaced integers which are elements of the array

Constraints

interchanging

Output Format

Array in which the largest and the smallest numbers are interchanged

Sample Input 0

5
3 5 7 8 4

Sample Output 0

8 5 7 3 4

Sample Input 1

3
3 2 1

Sample Output 1

1 2 3
